## Research Interests

---

- Artificial Intelligence
- Deep learning for Computer Vision & Object Detection and Recognition
- NLP & Computer Security (Kali Linux) *\*Extracurricular Interests*

## Education

---

### Kyungpook National University

Mar. 2024 – Mar. 2026

*Graduate School, M.S.*

*Robot and Smart System Engineering & AI Safety Convergence*

*Daegu, South Korea*

GPA: 4.02/4.3

Supervisors: *Bubryur Kim*

### North University of China

Sep. 2019 – Jun. 2023

*College of Information and Business, B.S.*

*Computer Science and Engineering*

*Jinzhong, China*

GPA: 3.35/4.0

Thesis Supervisors: *Yingliang Zhao*

## Academic Contributions

---

1. GreenViT: A Vision Transformer with Single-Path Progressive Upsampling for Urban Green-Space Segmentation and Auditable Area Estimation  
*Submitted to a journal(Under Review 2026)*
2. Deep Convolutional Stacked Model for Material Industry Applications: Automated Precise Porosity Assessment Based on CT Imaging  
*Accepted for presentation at C3 Symposium(2025)*
3. Concrete Structure Crack Classification and Analysis Using Neural Network and Clustering  
*Accepted by ICROS(2024)*
4. Application of Deep Learning Model Based on ResNet-50 Architecture in Semantic Segmentation of Satellite Images  
*Accepted for presentation at KICEM(2024)*

## Experience

---

### Research Intern

Sep. 2025 – Present

UNIST, Ulsan, South Korea

### Research Assistant Grade 3

Sep. 2025 – Feb. 2026

Kyungpook National University, Daegu, South Korea

<b>BK21 Research Assistant</b> Kyungpook National University, Daegu, South Korea	Mar. 2025 – Aug. 2025
<b>Research Intern</b> <i>Intelligent Construction Automation Center</i> , Daegu, South Korea Clustering-K-means; Edge detection; Neural Network(ResNet50)	Nov. 2023 – Mar. 2024
<b>Undergraduate Intern</b> Artificial Intelligence Lab, Jinzhong, China Development of Laboratory Management System Based on WeChat Mini Programs	Jun. 2021 – Jun. 2023

## Honors & Awards

---

- 2024–2026 KINGS Scholarship, Kyungpook National University
- Sep. 2025 Research Assistantship Grade 3, Kyungpook National University
- Mar. 2025 BK21 Research Assistantship, Kyungpook National University
- Sep. 2024 Excellence Award, Startup Idea Competition in Integrated Safety Engineering, Graduate School of Convergence Technology in Land and Transport Safety
- Jan. 2024 Merit-based Scholarship, School of Korean Language Education, Kyungpook National University
- 2021-2022 Third Prize, Lanqiao Cup National Software and IT Talent Competition(Python Group), Ministry of Industry and Information Technology of China

## Technical Skills

---

**Programming Languages:** Python, HTML, CSS

**Developer Tools:** PyCharm, Visual Studio Code, Cursor

**Frameworks / Libraries:** PyTorch, Numpy(Pandas), OpenCV(cv2), TensorFlow, Git, LaTeX, Kali Linux

## Language Proficiency

---

- **Chinese:** Native
- **Korean:** Fluent (TOPIK Level 5)
- **English:** Basic proficiency (CET-6)
